

TV :30 spot ... Coerced Abortion

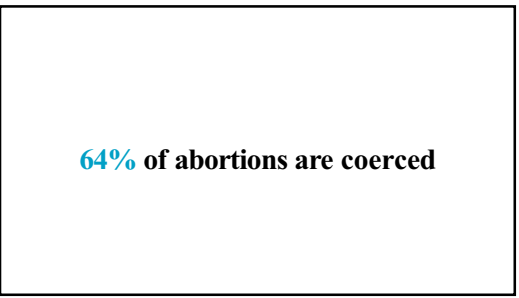

People say abortion is about choice.

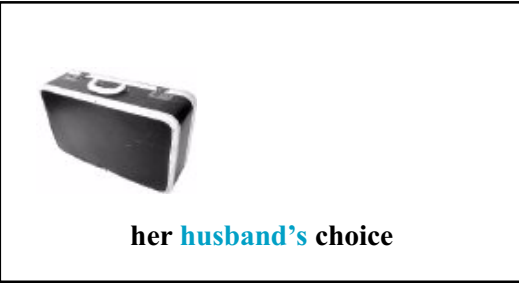

But when you talk to women who've *been there*,  
you hear a different story ...

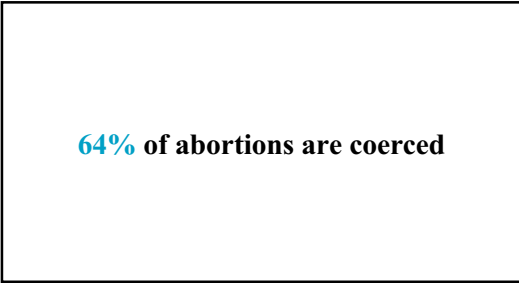

When they told Shontrese she had to get an abortion  
or spend the night on the street ...

abortion was *their* choice,  
not hers

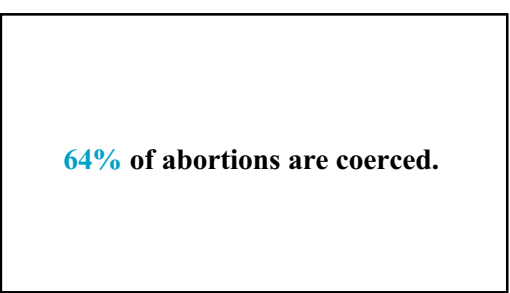

When Sandra's husband said he'd leave her  
and the kids if she didn't get an abortion ...

it was *her husband's* choice,  
not hers

When Julie's parents locked her in the house  
until she agreed to the abortion ...

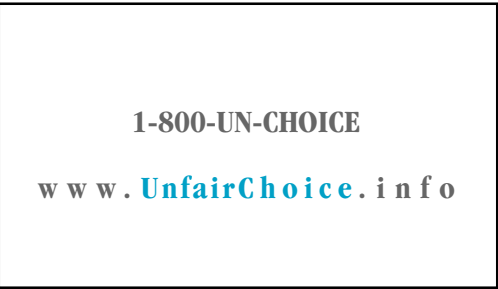

it was *her parents'* choice,  
not hers

*Animated logo - "un" comes in from off-screen.  
Then: unwanted ... unsafe ... unfair*

*A lot of women didn't choose abortion ....*

... but they can choose to heal.
